

Penny

These are pennies. Pennies are made of copper and zinc. Abraham Lincoln is on the front of the penny. He was our 16th president of the United States of America.

The Lincoln Memorial building is on the back of penny. The Lincoln Memorial is a statue in Washington D.C. It was built in honor of Abraham Lincoln. A penny is worth one cent. It takes one hundred pennies to make a dollar.

Nickel

Nickels are coins. Nickels are made up of nickel and copper. Nickel and copper are types of metal. Thomas Jefferson is on the front of the nickel. He was the 3rd president of the United States of America. Jefferson's house is on the back of the nickel. The house is called Monticello.

One nickel is the same as having five pennies. Twenty nickels make a dollar.

Dime

Dimes are made of metal. President Franklin D. Roosevelt is on the front of the dime. He was the thirty-second president of the United States of America. On the back of a dime are a torch, an olive branch, and an oak branch. The torch stands for knowledge. The olive branch stands for peace. The oak branch stands for strength. Pennies and nickels have smooth sides. Dimes have bumpy sides. A dime is worth ten pennies. Ten dimes make a dollar.

Quarter

Quarters are a kind of money made of metal. They are made of copper and nickel. George Washington is on the front of the quarter. He was the first president of the United States of America. Some quarters have a bald eagle on their backs. The bald eagle stands for strength. There are also quarters that honor each state in the United States of America. These quarters have different pictures on their backs. Some people like to collect state quarters. A quarter is worth twenty-five pennies. Four quarters make a dollar.
